The Stone House is an extraordinary piece of Sylvan's history. It was artfully crafted by August Loquet in 1911 out of stones locally collected and individually mortared together. Although the landscape of Sylvan Lake has changed significantly, the Stone House stands as beautiful as the day it was built almost 100 years ago.

The façade of the building reflects the thought and talents that went into the remarkable construction of this building. Colourful stones were matched and displayed to showcase the natural beauty inherent within.

The Stone House Spa reflects this attention to detail for our customers, respect for our body, mind and soul connections in all things related to our personal health and beauty. It's timeless strength and beauty represents the gift we want to share with you. Our staff is hand picked for their talent, dedication to their individual crafts and genuine caring for each and every customer.

It is our distinct pleasure to recognize and hold onto the charm, wisdom and craftsmanship given to us from the past, while continuing our quest to grow in the health and beauty industry as we discover new tools and technologies for enhancing the well being and natural beauty inherent within our customers.

Enjoy an individual service, or share the experience with your friends or loved ones. We'll enjoy the opportunity to treat you to the ultimate in professional pampering.
